LEADERSHIP

Leading a team to build a secure print management system replacing PaperCut, serving KFUPM students, faculty, and authorized users, with full testing and deployment planned by the end of the semester.

SKILLS

WEB DEVELOPMENT

- Next.js / React
- Tailwind CSS
- UI/UX
- Backend logic

DATABASES

- MySQL
- MongoDB

CONCEPTS

- OOP
- Data Structures
- System Design

PROFESSIONAL

- Teamwork
- Communication
- Problem Solving
- Critical Thinking

EXPERIENCE

FULL-STACK DEVELOPER – PLAYVIBE

FEBRUARY 3, 2026

Developed a responsive streaming platform using Next.js with MongoDB integration, focusing on scalable component architecture and modern UI/UX design. [\(Click to view\)](#)

FULL-STACK DEVELOPER – HORSE RACING

NOVEMBER 3, 2025

Built a full-stack web app using Next.js, PHP, and MySQL, implementing admin operations, optimized SQL queries, and transaction-based data validation.

FULL-STACK DEVELOPER – EZPRINT

JANUARY 2026 – PRESENT

Developing a print management system for KFUPM to replace PaperCut using Next.js, MongoDB, and embedded authentication, with secure job release, role-based access control, and centralized monitoring.

ADDITIONAL PROJECTS

JULY 2024 – PRESENT

10+ web applications (full-stack & frontend) — source code on GitHub and live demos on LinkedIn.

EDUCATION

BS SOFTWARE ENGINEERING • KING FAHD

EXPECTED: 2027

UNIVERSITY OF PETROLEUM & MINERALS (KFUPM)

GPA: 3.6 / 4.0

Relevant Coursework: Software Engineering, Requirements Engineering, Database Systems, Design Patterns, OOP, Operating Systems, Computer Networks, Web Development.

ACTIVITIES

Continuously learning modern system design and UI/UX practices while collaborating with university stakeholders to deliver secure, scalable, and reliable solutions.
